PURPOSE OF CONFERENCE

The aim of the conference is to present current research problems of materials, technologies and organization of civil engineering in cross-border approach, combined with discussions and experiences exchanges.

The conference will be part of the celebrations of the 65th anniversary of the Faculty of Civil and Environmental Engineering at Białystok Technical University.

TOPICS

The topics of the conference include the following scientific research areas of Civil Engineering:

- modern materials and technologies in civil engineering,
- recycling in civil engineering,
- safety and health in the implementation of construction processes,
- investment process in civil engineering,
- durability and utilization of buildings.

PROCEEDINGS AND PUBLICATION

Papers qualified after reviews will be published, depending on the subject, in the monograph or in scientific and technical journals:

- Civil and Environmental Engineering (ISSN 2081-3279)
- Journal of Sustainable Architecture and Civil Engineering (ISSN: 2029-9990)
- Inżynieria Bezpieczeństwa Obiektów Antropogenicznych (ISSN 2450-1859) – in Polish
- Modern Engineering (ISSN 2450-5501)

The conference language is English and participant's native language.
